MEET THE PROJECT

Financial literacy is essential in today's world, as it equips individuals with the knowledge and skills necessary to manage their finances and make informed decisions. However, migrants often face unique challenges when it comes to financial literacy, as they may be unfamiliar with the financial systems and practices of their host countries. The **INFINITY** project is an innovative approach to increasing the financial literacy skills of migrants, with the goal of not only helping them manage their finances but also promoting entrepreneurship, soft skills, and sustainability.

WORK PACKAGES

The project is divided into **five work packages** (WPs), each of which is designed to contribute to this goal. **WP1** involves project management, ensuring the project stays on track and completing deliverables to a high standard. **WP2** develops a framework for key competencies that migrants need to improve their financial literacy, which will inform the development of training material. **WP3** is responsible for creating tailored training curricula and material, including case studies, and interactive exercises, which will be tested through piloting activities. **WP4** develops an e-learning platform and digital board game with engaging and accessible resources such as videos, quizzes, and interactive exercises, making learning about financial literacy fun and interactive. Last but not least, the **WP5** creates a toolkit to help teachers and educators effectively use the project's training material, including lesson plans, assessment tools, and teaching guides.

PARTNERSHIP & MAIN GOALS

INFINITY

Co-funded by the European Union

The **INFINITY** project is a collaborative effort between several partners from different countries. These partners include **STANDO LTD** from Cyprus, **The Square Dot team** from Belgium, **INNOVATION HIVE** and **Gridustry** from Greece, **INSTALOFI LEVANTE SL** from Spain, **Med.O.R.O. scarl** from Italy, **ISEDE** and **EARSO** from Germany. These partners are working together to develop innovative approaches to increase the financial literacy skills of migrants and promote their self-employment and contributions to society. During the initial stages of the **INFINITY** project, the partnership held its *first meeting* in *Larissa, Greece*. The meeting brought together representatives from each of the partner organizations to discuss the project's goals and objectives, establish working relationships, and plan out the project's next steps. This meeting was an important milestone in the project's development, as it provided an opportunity for the partners to align their visions and start working towards a common goal.

Overall, the **INFINITY** project is an exciting and innovative approach to increasing the financial literacy skills of migrants. By developing a range of different resources, including training curricula, an e-learning platform, and a digital board game, the project aims to make learning about financial management engaging and accessible for migrants. The project's focus on entrepreneurship, soft skills, and sustainability will also help to promote self-employment and ensure that migrants become productive members of society, contributing to the welfare and growth of the areas they live in.
